

Assignments -1

1. Introduction, Footprinting & Scanning

- Q1. What is Ethical Hacking? Explain White Hat, Black Hat, and Grey Hat hackers with examples.
- Q2. What are the types of footprinting? Explain Passive vs Active footprinting.
- Q3. Which tools are used in DNS footprinting?
- Q4. What is NetBIOS Enumeration?
- Q5. What is OS Fingerprinting?
- Q6. Explain Ethical Hacking Methodology.
- Q7. Explain Network Scanning types (SYN, FIN, XMAS, NULL)

Assignments -2

2. Vulnerability Analysis, System Hacking & Attack Techniques

- Q1. Explain phases of System Hacking.
- Q2. What is ARP Poisoning?
- Q3. Difference between DoS and DDoS?
- Q4. What is Session Hijacking?
- Q5. What is Insider Threat?
- Q6. Explain DDoS attack case study.
- Q7. Explain SQL Injection, XSS, CSRF.

Assignments -3

3. Wireless, Mobile, IoT & Cloud Security

- Q1. Difference between WEP, WPA, WPA2?
- Q2. Android vs iOS security?
- Q3. Why IoT devices are vulnerable?
- Q4. OT vs IT security?
- Q5. What is Shared Responsibility Model?
- Q6. Explain Bluetooth attacks.
- Q7. Explain Cloud & Container Security.
